**Archie is a 4 year old cat. He is a friendly boy who enjoys a fuss. He lets you know when he has had enough by walking away. He hasn't shown much interest in toys yet, and seems to enjoy watching the world go by from his cat tower.**

**He has lived with other cats previously with no issues, so may be suited to again depending on compatibility. He will need access to the outside, so no homes on main roads or near a railway line.**

**Archie would be suited well to a home with children of secondary school age and above.**

**This assessment is ongoing and aspects may change as time goes by.**
