Angus is a 4 year old cat. He is incredibly sweet and affectionate. He enjoys being fussed over whilst sat on your lap, and seems more interested in human interaction than with toys.

He came into RSPCA care after receiving wounds from a cat fight so will be best suited as the only pet in the household. He will need access to the outside, so no homes on a main road or near a railway line.

He could live with children of primary school age, providing they know to be gentle when interacting with him.

This assessment is ongoing and aspects may change as time goes by.
