Bonnie is a shy but affectionate 2 year old cat. She can take a while to come around and show her true character. She does enjoy playing with teaser toys and once she's used to you she loves a fuss. She does enjoy grooming for a short period of time but then has had enough after a while. She can be a bit nervous to new things in her environment. Bonnie needs to be rehomed to a home with indoor/outdoor access that is not on a main road or near railway lines. Bonnie would need a quiet adult only home with no other cats to help her settle.
