

Tiggy and Tilly

BREED

Domestic Shorthair crossbreed

AGE

16 years and 14 years respecti

COLOUR

Tabby

Special appeal for an extra special home. Tiggy (16years) & Tilly (14 years) are two beautiful cats, who were brought to the Centre through no fault of their own, after their owner died. We think that Tiggy is Tilly's son so they have always lived together & make a lovely pair of cats, if you are looking to re-home two together. They are looking for a quieter home, where they can laze by the warm fire and be fussed, stroked and pampered. They really are two lovely, beautiful, friendly cats. Recently we found out that sadly Tilly has cancer. At the moment she seems comfortable but the vets can not say how long she has left. Normally we would put her straight into foster where she can be comfortable and well looked after but this case is complicated with Tiggy. Tilly and Tiggy have lived together for a long time and really love each other we couldn't bare to separate them. We want to do the best for Tilly and get her into foster but we also want to do the best by Tiggy and not move him around too much so we are doing a massive appeal for a very special family who will take on Tilly and give her the love she needs (medical costs will be covered for her illness) but who will also give Tiggy a forever home. Both cats are very affectionate with people but Tiggy isn't too keen on other cats. If you think you would like to adopt these two lovely cats please let us know
