Rolo is a lovely little dog, who has such a loving nature. He can be a little nervous at first, until he gets used to you, but once he gets to know you he adores you. Rolo loves palying fetch and chasing you, he is a fun loving little dog. Rolo is lovely to walk and has met a couple of dogs who he was quite nervous of, so would prefer to be the only dog in an adult only household. Rolo would prefer to live within a household where he is not left alone for too long. He will make a lovely pet/companion for an active household.

I'd prefer to be the only dog in a home
