Jasmine is a wonderful playful dog who loves running around playing with her toys. She loves attention but can be a bit hand shy when being stroked and she will shy away from you, so she may take a while to settle in to receiving affection. She walks nicely on the lead however is very strong due to her size so an owner with experience of large breeds would be desirable. She loves to meet new dogs and is happy and enthusiastic, however due to her size can sometimes be a tad overwhelming and boisterous. Jasmin would benefit from ongoing training and could live with children aged 16+.

I get on well with many other dogs
