Dot and Dylan are a wonderful pair of dogs with a cheeky personality, they love fuss and attention and will happily sit on your knee. They can sometimes be nervous of new people and need some time to build their confidence. Dot and Dylan are very unsure and nervous around other dogs and will bark continuously at them, so they would benefit from training classes & they are to be rehomed to a household without other dogs. However, they love human attention and have won the hearts of all the staff at the centre. Dot and Dylan will make excellent companions in most households with children aged 14+
