

Panda - TEMP RESERVE

BREED

Lurcher Cross

AGE

9 Months

COLOUR

Black and White

Panda is 9 months old and is a very friendly boy who loves to interact with you once you have gained his trust. He can be a little nervous of new people and surroundings but quickly settles and adapts. He has very good basic obedience and thrives on learning new skills. Panda will need an experienced owner who can continue his training and provide the enrichment that he requires. He will need further toilet training, so new owners will need to be prepared for a few accidents. Panda's ideal home is as the only pet as he would benefit with lots of one to one with a new owner, however he could possibly live with another dog depending on compatibility. Panda can live with children of secondary school age and would be best suited to a mature active family.

This assessment is ongoing and aspects may change as time goes by.

I'd prefer not to live with a cat

I may be able to live with another dog

I'd love to lean agility or fly ball

I know my basic command but would love to learn more
