Drake is a 2 year old Mastiff Cross. He is a fantastic boy who is a very friendly and enjoys fuss and attention. He can be a bit jumpy at times so will be best suited to a home with children of secondary school age, and above.

He can have a short attention span with training so it is best to do little and often and keep it varied. He loves to play fetch with a tennis ball and enjoys his rope toys. Drake may be able to live with a compatible dog, pending a successful introduction.

Drake can open doors so this is something the new owners will need to be careful with.

This assessment is ongoing and may change at any time in the future.
