Princess is a 1 year old, small sized Staffy. She is a very sweet natured girl but can be hyperalert in unfamiliar environments. It is important to take introductions with new environments slowly and not to overwhelm her.

She is a fast learner, however is easily distracted. She can be a little erratic on lead but is eager to please. Princess is very reactive to other dogs and requires owners that fully understand that she would need to be walked at a big distance from other dogs, at quiet times and in very quiet areas to keep her stress levels down.

She will need to be the only pet in the home and can possibly live with children of secondary school age or above. She will be a wonderful companion to the right home.
