Sabre

BREED
American Akita

AGE
2 years

COLOUR
Fawn

Sabre is a 2 year old American Akita.

It can take Sabre a little time to build up his trust in you, but once you allow him some time and interact with him in a positive manner using high value rewards, he responds wonderfully.

He is unsure of having his paws touched so will need plenty of slow and positive handling sessions to increase his confidence in this area. Overall, Sabre is a playful and loving young lad who loves to play with toys and do zoomies when given the chance. His ideal home would be with a mature couple with similar breed experience, who have the time necessary to dedicate to the training he needs.

He has lived with a female dog previously and has also lived with cats, so may be able to again depending on compatibility, however his ideal home would be as the only pet so that the focus can be on his training needs. He will need an adult only home.

This assessment is ongoing and may change at any time in the future.

I may be able to live with a friendly cat

I may be able to live with another dog
