

## Ruby

**BREED**

Staffordshire Bull Terrier

**AGE**

10 months

**COLOUR**

Brindle

**Ruby is a 10 month old Staffordshire Bull Terrier.**

**She is an incredibly excitable and giddy young lady with endless energy. She enjoys spending time with you but easily becomes over aroused and will mouth at her lead. We have found that by giving her something to carry, such as a tennis ball, she is less inclined to mouth, but she will need further guidance in this area.**

**She needs an understanding owner that can teach her how to remain calm and relaxed, and that will provide her with the exercise and stimulation she needs.**

**Ruby has enormous potential but will require a patient, active and understanding home with somebody around a lot of the time. She may be able to live with children of secondary school age and above. Ruby can be reactive and over the top with other dogs, so will require further distance work.**

**This assessment is ongoing and may change at any time in the future.**

I'd prefer not to live with a cat

You'll need to take me to training classes

I'm always on the go

I'm a bright spark
