

Magnum

BREED

british Bulldog

AGE

2 years

COLOUR

tricolour

Magnum is a 2 year old British Bulldog who absolutely loves fuss and attention he is such a happy lad; he has a lot of confidence and loves everyone he meets.

Magnum likes his food and is enthusiastic when trying to learn new commands. He does his best but loses concentration and jumps up to grab treats. However he is fairly gentle when taking food and doesn't snatch. He will do a "sit" but does jump up straight away after so he needs work on his basic commands - and his patience!

Magnum does not seem too interested in toys, he is a lot more interested in human interaction, and he is a very excitable boy especially when he is around people.

Please note that Magnum has got mild hip dysplasia and will require ongoing, life long, treatment to help manage this.

Magnum could live with dog savvy children of 10+, and could live with another dog if compatible.

This assessment is ongoing and aspects may change at any time.
