

Daisy

BREED

German Shepherd

AGE

2 years

COLOUR

Black

Daisy is our lovely 2 year old German Shepherd, who is always happy to see you and loves having a fuss.

She finds kennel life quite stressful, but is generally relaxed in other situations, especially when she is around people. Daisy would benefit from having someone at home with her for the majority of the time or a family who has the time to take her out with them on their adventures, as she does need teaching that it's ok to be left alone.

She is quite food motivated (and loves hot dogs) but she is very gentle in taking treats and food from you. Daisy knows a few commands such as sit and wait and we are working on teaching her new things every day. She is looking for someone who would enjoy continuing this training with her.

She will allow you to bath and groom her with no problems and she even enjoys the hair dryer! Daisy loves getting new toys and she can even give up the toys on command if asked. She is a very playful girl who has so much love to give.

She could live with children aged 16+ and may be able to live with another dog if compatible and could not live with cats or any other small furies.
