We have a lovely litter of 4 pups here at the centre, three boys and one girl. They are all wonderful little characters, full of mischief and love. They were born here at the centre and the staff have spent a lot of time caring for and falling in love with these wonderful little ones. Due to the amount of interest we receive in puppies, we will be taking multiple applications and will be conducting a sifting process in order to find these pups their perfect match.

I'm always on the go

I may be able to live with a friendly cat I need someone with me most of the time

You'll need to take me to training classes

I love having cuddles

I could live with children

I get on well with many other dogs
