Black

The beautiful Denise is looking for her furever home

Denise was quiet shy when she first arrived at the centre. During her time here she has started to build her confidence up and come out of her shell. Denise is happy to come out to greet us.

She looking for a home where she can be given space to build up her confidence again. During her stay we have found that she isn't keen on other cats so will need to be the only pet in the home.

Denise will need access to the outdoors and can't live on a main road or near a railway. She would like to be the only pet in the home.

This assessment is ongoing and may change at any point in the future.

If you would like more information about any of our cats available for adoption or for an application form please contact the branch.
